

Salone del Mobile.Milano 2018  
Milano Bedding, Hall 6 - Stand B29

**The Milano Bedding novelties at the Salone del Mobile:  
careful search for balance between aesthetics and functionality.**

Milano Bedding, for over twenty years, has been involved in combining relax, comfort and design made in Italy through its sofas, sofa beds and beds; constantly evolving proposals not only at an aesthetic level but also functional, ensuring cutting-edge opening / closing mechanisms, specific mattresses for the different needs and preferences, several covers for every taste.

At the Salone del Mobile.Milano 2018, the Brianza-based company introduces two new products.

The **sofa and sofa bed Dave** stands out for its careful research of balance, aesthetic appeal and functionality. Its frame, thin and resistant, combines linearity and elegance with sitting comfort, guaranteed by carefully calibrated proportions. The feet, 16cm high, are in polished aluminum and help to slim and distinguish the model, for a contemporary result characterized by lightness.

**Michel**, an essential, versatile and practical sofa bed with side by side sleep, which also offers the possibility of choosing two armrest variants for greater personalization.
